

Virtual Conference

October 13-15, 2020

SESSION TITLE: Where's the Beef

DESCRIPTION: The session will update participants regarding the Department of Natural Resources role and the local EH role is regarding local meat processors and wastewater treatment requirements. The session will also detail the expectations and roles of DNR, County EH professionals, Time of Transfer Inspectors related to On-Farm Food Processing and the approval process required by the Iowa Department of Agriculture to permit new or existing meat processors. Other topics related to program requirements including review of the land application requirements of Ch. 68, IAC 567, related to on-Farm Food Processing.

PRESENTATION OBJECTIVES

Provide at least two objectives.

1. Attendees will be able to identify what agencies and processes are involved when approving a wastewater treatment plan for a new or existing meat processor
2. Attendees will be able to define what is an On-Farm Food Processor and what is acceptable to land apply according to Ch. 68, IAC 567.
